

From Chairman Desk

Dr. R.K. Jha
Chairman

I am very proud to all possible opportunity has been made available to students of this institution to develop their inner and creative talents in debates, fine arts, crafts, music and other allied activities.

This institution is well equipped with experienced, efficient and qualified teachers who are fully competent to provide teaching technique to children.

I am thankful to the director of this institution who made the best efforts to provide all possible opportunities to student irrespective of any obvious discrimination whatsoever a well planned and rigorous study routine enable the students the achieve their full potential.

I wish to offer myself to do all possible opportunity to the students to develop their hidden talent and creativity. I also want to make efforts for all round development of marigold institution.

From Director Desk

Dr. (Mrs.) Jyoti Jha
Director

It is rightly said the "Education is not a preparation for life, education is life itself". C.M.J. Institute of Education has made a humble beginning in the year 2010 and it has been our sincere endeavour to create avenues to encourage children with free thinking and creativity, positive and construction mental abilities. According to Gandhiji Education is the process of bringing about the best in an individual and human being must be encouraged to bring about his best of abilities so that the community is developed.

Education is conducted both at school and at home but when people hear the word "Education" they usually think of school. Too little attention is given to education for humanity which can be given so well at home. History shows that the chief role in education is played by the home and that performed by school is only supplementary. If a child is denied affection and treated coldly, he will develop a feeling of insecurity and inferiority that will stay with him for the rest of his life. We, in our school premises, are sincerely trying to give our children ample opportunity to have not only a sound academic base but also a forum to exhibit their inherent skills and talents. I am confident that my students will work hard to fulfill our vision and they will shine wherever they go.

Our Inspiration

"Education is not the amount of information that is put into your brain and run riot there, undigested, all your life. We must have life building, man making, character building assimilated five ideas and made them your life and character, you have more education than any man who has got by heart a whole library."
